26 Metre Offshore Windfarm Support Vessel

The **MMS Superior** is a high specification catamaran. Purpose-built to support the Offshore Renewable energy sector during the initial installation, operation and maintenance phases.

The vessel is classed to Bureau Veritas Category 1 Area. This multi-purpose high speed catamaran is capable of carrying out a multitude of different roles. The deck area of 90m² can carry 2 x 20ft or 4 x 10ft containers which makes this vessel ideal for general supply and cargo carrying.

This vessel has the ability to transit offshore at high cruising speeds whilst at the same time maintaining economic performance and has excellent capabilities when working in adverse weather conditions.

There are comfortable passenger areas on board that consist of seating for up to 12 persons, galley area for preparing refreshments and entertainment systems including televisions and radio. All to ensure optimal comfort whilst on board. The vessel has on-board accommodation in the form of 3 cabins, which can sleep 6 personnel.

Role Capability

- Windfarm Support
- Safety Standby
- Personnel Transfer
- Supply Vessel
- Survey Work
- Dive Support
- Guard Work
- ROV Deployment
- Cleaning of Offshore Structures
- Mobile Workshop
- Lubricant Exchange
